## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restriction***

1. Claim 10 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected species, the requirement having been traversed in Paper No. 6. The traversal is on the ground(s) that the species are not distinct. This is not found persuasive because applicant has not submitted evidence or identified such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nielson et al(6,224,099).

Nielson et al discloses a gas generating composition that comprises guanidine nitrate and ammonium perchlorate. The composition also includes sodium carbonate. Other ingredients are included such as binders, burn rate modifiers, and slag formers. The particular amounts of the fuel and the oxidizer are not disclosed.

Art Unit: 3641

It would have been obvious to one having ordinary skill in the art at the time the invention was made to vary the amounts of the fuel and oxidizer in the composition of Nielson et al so that it effectively works as a gas generant in a supplemental restraint system.

***Response to Arguments***

4. Applicant's arguments filed 5/2/2002 have been fully considered but they are not persuasive. Applicant contends that Nielson et al does not disclose the composition as claimed. In column 6, lines 26-62 and column 7, lines 5-37, a composition is disclosed that contains ammonium perchlorate, guanidine nitrate, sodium carbonate and binders. The amounts of each ingredient can easily be varied by one of ordinary skill in the art. There is no indication that Applicant's composition would perform any differently then the one disclosed by Nielson.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3641

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
